## ADJUSTABLE CLOSING ANGLE ZEBRA BLINDS

When zebra blinds are installed into the window frame and placed at the bottom, there is often a problem of not being able to completely seal the light.

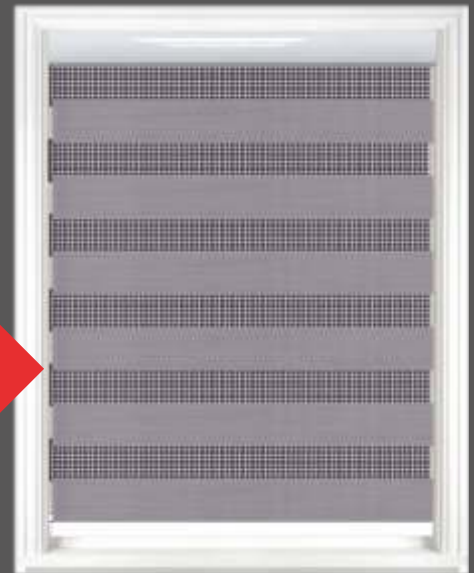

To address this issue, we have developed a special mechanism that allows the blind to halt at any position, ensuring complete light blockage.

Unable to fully close

Adjusted

completely closed

### Innovative Mechanism:

Stops at any position for total light blockage

### PATENTed Product:

We have successfully secured a patent for this unique solution
